Staff Summary of Public Testimony:

(In support) The Office of the Superintendent of Public Instruction urges support of the bill. School district experience is highly desirable in terms of recruiting for state employment. Allowing school district employees to be credited with service in terms of leave accrual rates will provide a benefit to the state in recruitment. A school district employee earning 22 days of leave per year that moves to state employment receives 12 days per year. If the state recognized service with the school district, the employee would earn 17 days per year. Higher education employees are recognized as state employees, yet school district employees are not.

(Opposed) None.

Persons Testifying: Representative Hunt, prime sponsor; and Gary Myers.
